

Core Maths Conference

Academic year: 2026–27

Course overview

The Core Maths Conference is a one-day professional development event for current and aspiring Core Maths teachers.

The conference focuses on effective pedagogy, engaging tasks, mathematical communication and problem-solving, while providing opportunities to network, share ideas and explore strategies that can be applied in the classroom. Each year the conference has a different focus and programme.

Features of the conference:

- One-day in-person professional development event with the same content in each location
- Designed for current and aspiring Core Maths teachers
- The conference will have a different focus each year

Conference locations and dates

The Conference will be held in **London** and **Birmingham**, please choose the venue and date that suits you best.

Please note: bookings for the Birmingham conference will open closer to the event date in the Spring term. Only the London conference will be available to book during the Autumn term.

Location	Date
NVCO, London	Friday, 4 December 2026
The Studio, Birmingham	Friday, 25 June 2027

Conference schedule

Core Maths Conference

Academic year: 2026–27

Quotes

"It was very hands-on and interactive with a relaxed atmosphere but not overpacked so it did not feel rushed."

"I am going to teach it for the first time in September, and this event gave me a great insight into what to expect and the best ways to teach it."

"Great to have the time to explore Core Maths in more detail. The sessions were useful and informative. I am really looking forward to sharing this new information with the team."

Eligibility

The DfE provides funding so that places on this conference are free to teachers from state-funded schools and colleges in England. For those who do not meet this criterion, the course fee of £115 will apply.
